

**Thurrock Community Safety Partnership  
Value for Money Report  
August 2012**

**Item 5 - Appendix 3**

The following table is designed as an overview as to how the spend of funding is contributing to a reduction in crime:

Crime	% change on year 2011/12	crimes / 1,000 population	Comparison crimes / 1,000 population to:		
			Basildon (similar family)	Essex	Most similar family average
Anti-social behaviour	Anti- social behaviour reported to the Police continued to fall last year and continues on a downward trend to July 12				
Serious acquisitive crime	+7%	4.303	4.960	3.157	2.982
Re-offending rates	With the introduction of a new offender management scheme, data is currently not yet available, however initial signs are encouraging				
Violent crime	0%	11.731	11.694		12.224
Domestic abuse	Thurrock has seen an increase in reporting of domestic abuse and incidents in line with Essex				
Loan shark reports	There were 4 reports in 2011/12, however we have already had 2 reports in the first quarter of 2012/13				
Distraction burglaries	+33%	Data is too small to make comparisons			
Racial or religiously aggravated crime	+9%	0.232	0.171	0.126	0.151
Drugs and Alcohol	Thurrock DAAT performance improvement has continued with the total number of all drug users engaged in effective treatment increasing by 10% and is above national average comparatively.
