Date	From	Motion	Status	Accountable Director
01/12/11	Cllr Nicklen	This council does not endorse the union strike action held on November 30th and regrets the inconvenience this caused to Thurrock's residents, including the movement of the council meeting.	Extensive contingency plans were put in place to ensure any disruption to the running of essential services to the public, was kept to a minimum during the strike action of 30 <sup>th</sup> November. Retrospectively, strike numbers have been recorded and used to ensure appropriate deductions from pay and to further analyse and better plan for the impact should any future action occur. The strike was a result of an as yet unresolved national dispute, however the Organisational Development Team continue to work with the Council's recognised trade unions to resolve local issues that might result in dispute and to maintain a healthy employee relations climate which nullifies the need for industrial action as far as is possible. 			<p>The Government recommends that issues such as vulnerable tenants should be taken into account when deciding whether to prosecute.</p> <p>This is now the subject of a private members bill going through Parliament. 26/09/12	Cllr Halden	The chamber requests a feasibility study to be done with a view to allowing schools to directly spend 106 or CIL money designated for educational provision.	Legal advice is that it is entirely reasonable to seek from developers funds for schools. However the actual decision of allocation of the apportionment of funds would need to remain with the local authority in terms of CIL policy. For S.106 monies it is not possible to direct that the funds be paid directly to schools which are not connected in any way with the development. Going forward to the CIL regime it could be possible to establish a consultation advisory panel or sounding board where the local schools could have an input into the prioritisation of such funds in terms of allocation and that would assist in terms of establish a degree of accountability. The feasibility of this will be examined in forthcoming reports on CIL to the Planning, Transport and Regeneration Overview & Scrutiny Committee (November) and Cabinet (December). ## ITEM 22 – UPDATE ON MOTIONS PASSED AT THE COUNCIL MEETING – 28 NOVEMBER 2012

	<p>Council recognises that Universal Credit is a household benefit and that the income from Universal Credit will therefore be critical to the household incomes of thousands of its residents who are both in and out of work.</p> <p>Council therefore believes that the quality of the Universal Credit ‘service’ will be important to the lives of its citizens and that the planned reliance on a web based delivery model backed up by remote call centres without the inclusion of a local, easily accessible, face to face service element puts the successful introduction of Universal Credit at significant risk.</p> <p>Council resolves to approach the Department of Work and Pensions (DWP) and raise its concerns.</p> <p>Council further resolves to ask Cabinet to develop, jointly with DWP, local arrangements for the delivery of Universal Credit and to report back on progress to a future Full Council specifically addressing the resources required and responses to the following basic questions:-</p> <ul style="list-style-type: none"> <li>• How will someone apply locally?</li> <li>• Where will they apply locally?</li> <li>• Where will they take required documents locally?</li> <li>• Where will the local ‘Universal Credit’ office be and what office accommodation will be required?</li> <li>• How will the skills and experience of existing benefits staff be utilised and how many staff will be needed?</li> <li>• How does an individual citizen get face to face</li> </ul>	<p>Officers are working closely with colleagues in other Essex authorities to ensure that we are ready to deal with the impact of Universal Credit in terms of demands on Council services.</p>
