## Themes

Theme	Issues/Aims
Get the Governance Clear	<ul style="list-style-type: none"> <li>• Clear governance structures including responsibilities/obligations</li> <li>• Evaluation of services</li> </ul>
Visible working together – walk the talk at each level	<ul style="list-style-type: none"> <li>• Visibly working together (as shown in this event)</li> </ul>
Many channels, opportunities and touch points, but behind that a united response	<ul style="list-style-type: none"> <li>• Multiple opportunities to connect within the community at all stages of life in a meaningful way and easy to get and give support - mutuality</li> </ul>
Break the boundaries – give GPs ability to ‘prescribe’ not just medicines, but social prescribing [for example, further education, lunch clubs, self-help groups, befriending, hobby clubs, gardening, sports, book groups, art or dance classes	<ul style="list-style-type: none"> <li>• Alternative prescriptions – remove the idea that GPs can only prescribe health</li> </ul>
Great engagement at all levels, respect and listening	<ul style="list-style-type: none"> <li>• Trust and honesty</li> <li>• Collaborative working with all agencies keeping the need of the recipient at the top</li> <li>• Building trust between each other</li> <li>• Audit and learn from failures so that the care can be improved and reduce bureaucracy</li> <li>• Co-produced system of integrated services with service users as equal partners in system design</li> <li>• Include everyone in the conversation</li> <li>• Involve everyone in planning care – patients, carers, providers, commissioners, the community</li> <li>• Develop mutual appreciation of differences in organisational culture</li> <li>• Bottom-up approach</li> <li>• Valuing community / Engage all levels of the community</li> <li>• Marketing public campaign that involves telling the community that integration is coming, have your say etc.</li> </ul>

Focus on delivery/ rigorous delivery	<ul style="list-style-type: none"> <li>• Keep actions SMART</li> <li>• Ensure all work action points are done</li> <li>• Set out and agree process, milestones, review and action</li> </ul>
Care at home is default position – delivered by localities	<ul style="list-style-type: none"> <li>• Community first – everything at a local level unless by exception</li> <li>• Care at home unless intervention cannot economically and practically be delivered at home</li> </ul>
Be clear how money flows – do not fudge it!	<ul style="list-style-type: none"> <li>• Respectful joint commissioning</li> <li>• Value for money</li> <li>• Get control of processes and cash flows</li> <li>• Change finance costing systems and budgetary arrangements</li> </ul>
Build our single support offer around the person	<ul style="list-style-type: none"> <li>• outcomes rather than services</li> <li>• Local Area Co-ordinators to work along side GPs</li> <li>• Patients select who need highest level of care – priorities</li> <li>• Give power to LAC to supervise/ agree changes to care plan etc all other service providers, in consultation with service users</li> <li>• Joined up care with single point of contact</li> <li>• Build [and co-ordinate] care and support around the person</li> <li>• Build on what we have together – joined up well</li> <li>• Community development approach to involve community in ‘care’ – inclusive approach (services)</li> <li>• Care plans covering all aspects of the needs of the person</li> <li>• Single plan for whole person which directs the interventions of all providers and connects people to their communities</li> </ul>
Prevention/ anticipation focus	<ul style="list-style-type: none"> <li>• Incentivise primary and community services for keeping people out of hospital/ residential care</li> </ul>

	<ul style="list-style-type: none"> <li>• Person centred and 'led' in a preventative and anticipatory way</li> <li>• Choice of provision by service user where services are needed</li> <li>• Prevention is better than cure</li> </ul>
Shared Information is core to a unified response to a comprehensively personal plan	<ul style="list-style-type: none"> <li>• Clear systems of communication within and across agencies</li> <li>• Focused and useful easy to understand and negotiate</li> <li>• Patient-led plan which all relevant parties can access</li> <li>• Understand information governance 'rules' and how to prevent them from becoming barriers to integration</li> <li>• Good acceptable tool to allow information sharing across historic boundaries</li> </ul>
Shared purpose	<ul style="list-style-type: none"> <li>• Shared principles with an agreed unified vision</li> <li>• Common goals</li> </ul>
A single joined up plan from bottom (the individual care plan) to top – our single Thurrock Plan	<ul style="list-style-type: none"> <li>• Joined up plans (despite legislation barriers)</li> <li>• Focus on whole patient</li> <li>• Needs to start at the beginning of the patient's pathway to prevent crisis</li> <li>• From diagnosis, a live (reviewed and responsive) care plan considering all areas of health and wellbeing for both patient and carer(s)/family</li> <li>• Community care developed</li> <li>• Planning with stakeholders</li> </ul>
Principle from top to bottom – from single commissioning to single point of contact	<ul style="list-style-type: none"> <li>• Commission a single economy of health and social care as well as investment in the community – neighbourhoods, and the built environment</li> <li>• Single commissioning arrangement for H&amp;SC in Thurrock</li> <li>• Identify responsible persons who are accessible</li> </ul>
