

Lower Thames Crossing

Thurrock Council LTC Taskforce
September 25 2017

HE540039-CJV-GEN-GEN-PRE-STK-00052

Meeting the scheme objectives

The best balance between improving journeys and providing value for money, combined with the smallest community and environmental impacts

Economic

- Support sustainable local development and regional economic growth, medium to long term
- Be affordable for Government and users
- Achieve value for money

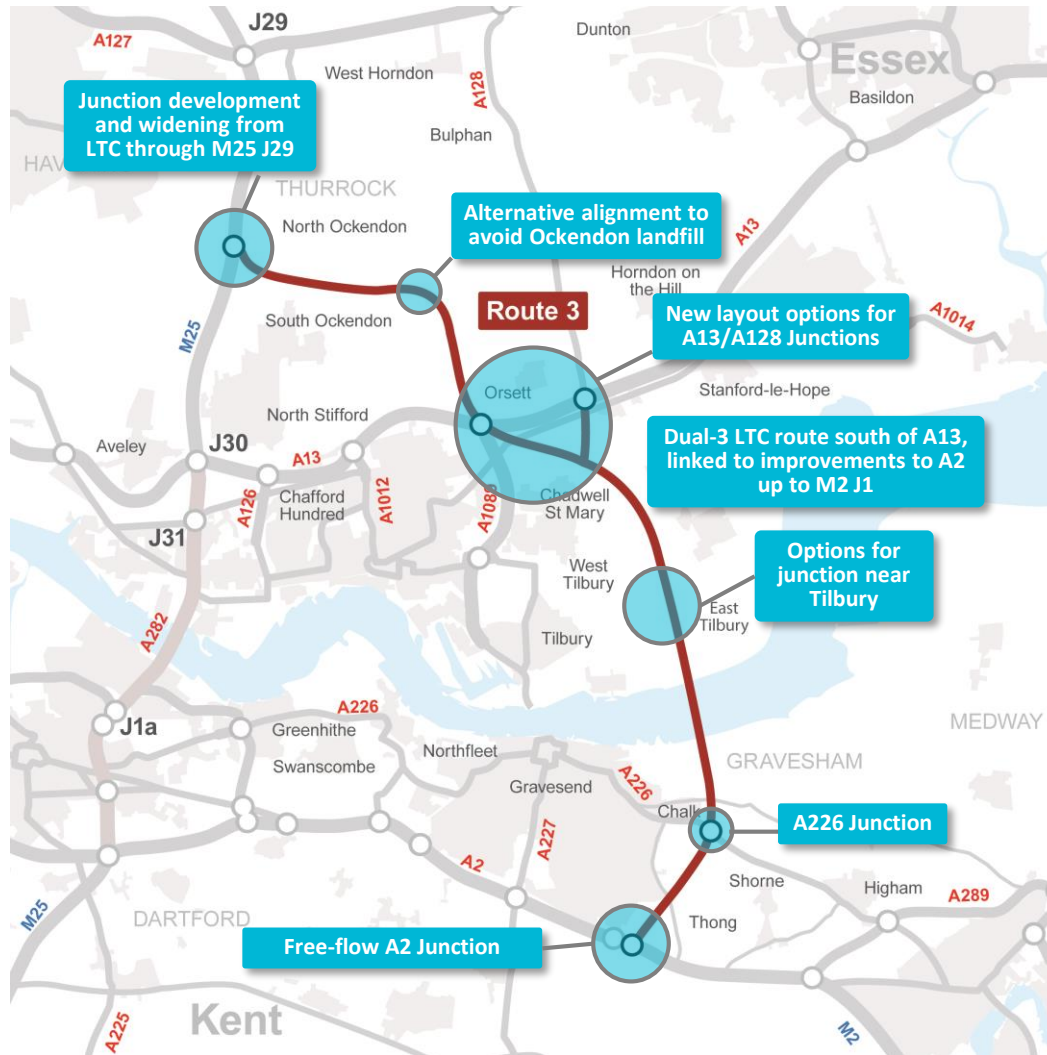

Transport

- Relieve the congested Dartford Crossing and approach roads and improve performance by providing free flowing north-south capacity
- Improve resilience of the Thames crossings and the major road network
- Improve safety

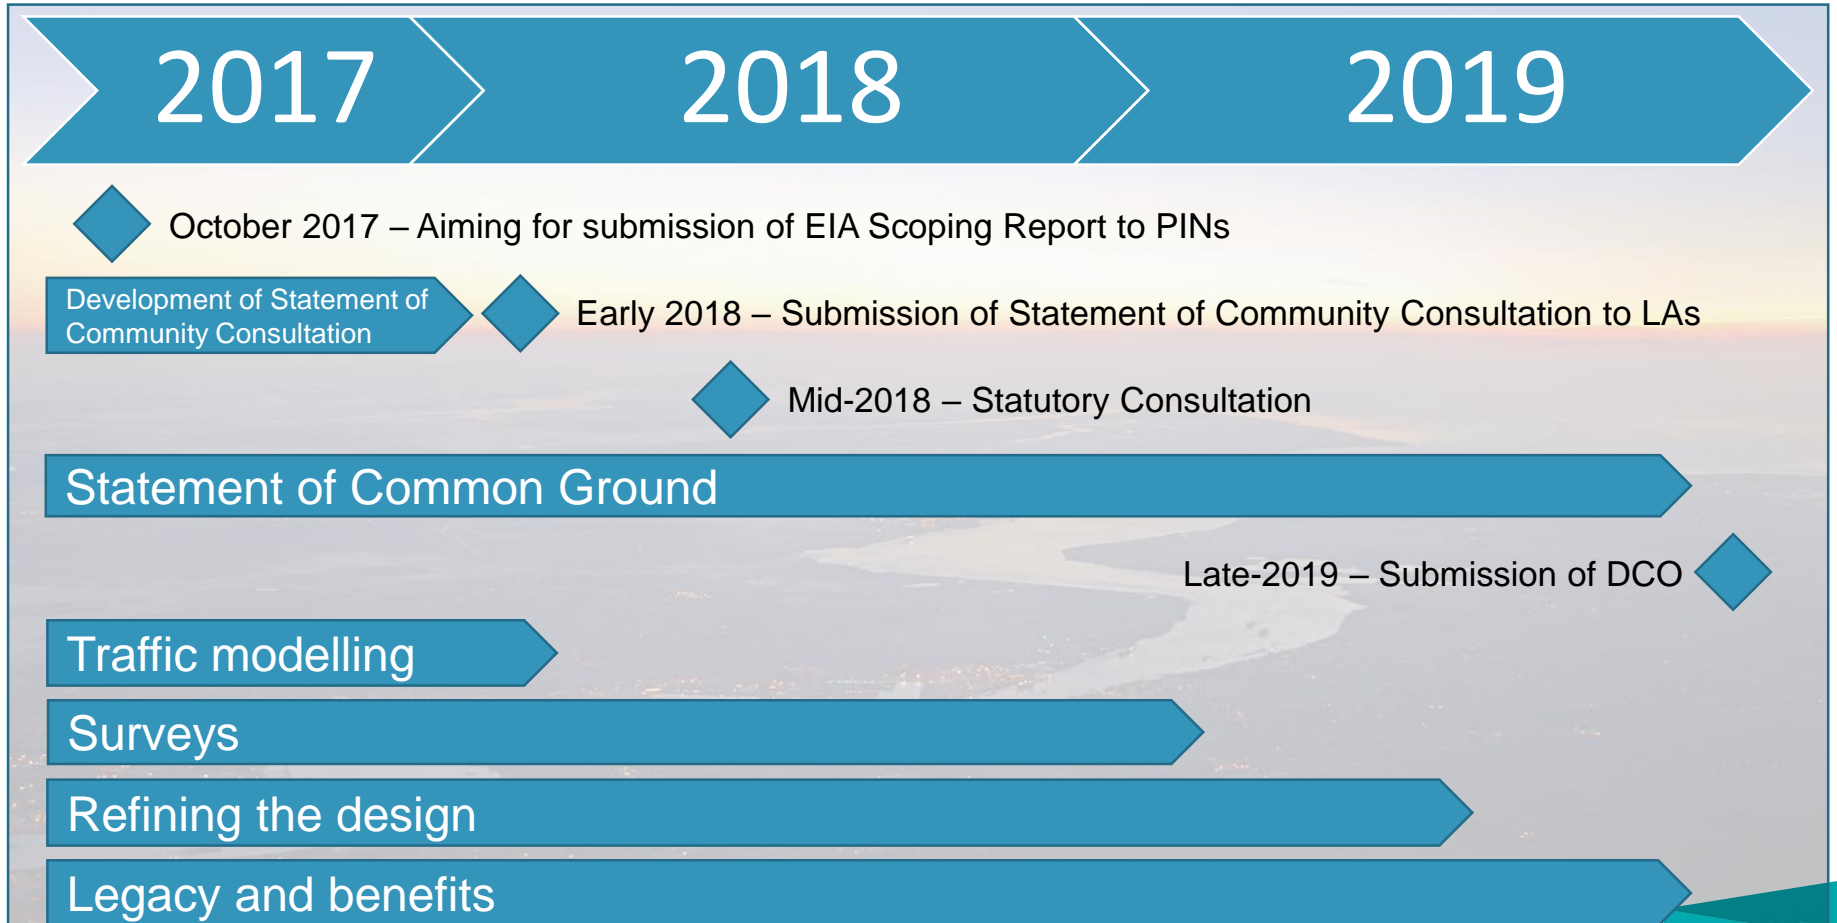

Community and Environment

- Minimise adverse impacts on health and the environment

Design update
