SECTION 1 – INTRODUCTION

What is the Statement of Community Involvement?

- 1.1 Planning affects everyone in our community, however most people only get involved in planning when it directly affects them. The local planning authority is usually responsible for deciding where development takes place and what happens in our towns, villages, open spaces and environment. The Council does this by preparing elements of the development plan and determining planning applications.
- 1.2 The National Planning Policy Framework¹ (NPPF) sets out the Government's planning policies and must be taken into account in the preparation of development plans and planning application decisions. The NPPF states that the planning system should be easier to understand, more accessible and with a commitment to involving all who are interested in planning "Early and meaningful engagement and collaboration with neighbourhoods, local organisations and businesses is essential. A wide section of the community should be proactively engaged, so that local plans, as far as possible, reflect a collective vision and a set of agreed priorities for the sustainable development of an area, including those contained in any neighbourhood plans that may have been made..." NPPF (2012) Paragraph 155.
- 1.3 The Statement of Community Involvement explains how we will involve local communities, businesses, and other interested parties when we prepare our planning policies and determine planning applications.

Why are we updating it?

- 1.4 Since the previous SCI was adopted in December 2015 the Council has undertaken a comprehensive review of its consultation practices and is now committed to delivering a more comprehensive and interactive place based approach to consultation.

How is it set out?

- 1.5 To ensure that communities and stakeholders are aware of how they can engage with each of the different strands of planning, the SCI has been split into the following parts:

Part 2: Corporate consultation principles

Sets out the Council's corporate consultation principles and provides detailed information about the 'Your Place, Your Voice' consultation technique which will be used by the Council to encourage more active participation from communities.

Part 3: Plan making

Sets out the stages involved in preparing planning policy documents including Local Plans, Supplementary Planning Documents and Community Infrastructure Levy Charging Schedules.

Part 4: Decision taking

Sets out how planning decisions are made and how and when you can make comments on proposed developments.

Part 5: Neighbourhood Planning

Sets out what neighbourhood planning is and the key stages that are involved in preparing neighbourhood plans and orders.

How will it be monitored?

- 1.6 The success and effectiveness of the SCI will be reviewed through the Authority's Monitoring Report (AMR). Indicators will be used to review the SCI and changes will be considered where there has been a particularly low level of community involvement. Any necessary changes will be incorporated into a future revision of the SCI.

SECTION 2 – CORPORATE CONSULTATION PRINCIPLES

What is the Council's approach to stakeholder engagement?

2.1 The Council is committed to giving local people and key stakeholders a greater role in shaping their neighbourhoods and the Borough as a whole. When consulting with stakeholders the Council will:

- Involve key stakeholders at the earliest opportunity possible
- Keep the process simple by writing in plain English and explaining any technical terms that we use.
- Communicate clearly by explaining the reasons why we want to involve you and receive your comments.
- Use engagement methods that are relevant to the community being consulted and appropriate in scale.
- Make it easy for you to get involved by setting out when and where you can provide your comments.
- Be inclusive by providing information in an accessible format and encouraging involvement from groups that are traditionally more difficult to reach/engage.
- Be transparent and objective by presenting all relevant facts and ensuring that stakeholders are aware what can and cannot be influenced/changed as a result of the consultation
- Share information using the Council's website, local libraries and at the Council Offices in Grays.
- Make sure your involvement is effective by ensuring all comments we receive are recorded, read and taken into consideration.

What will you be expected to do?

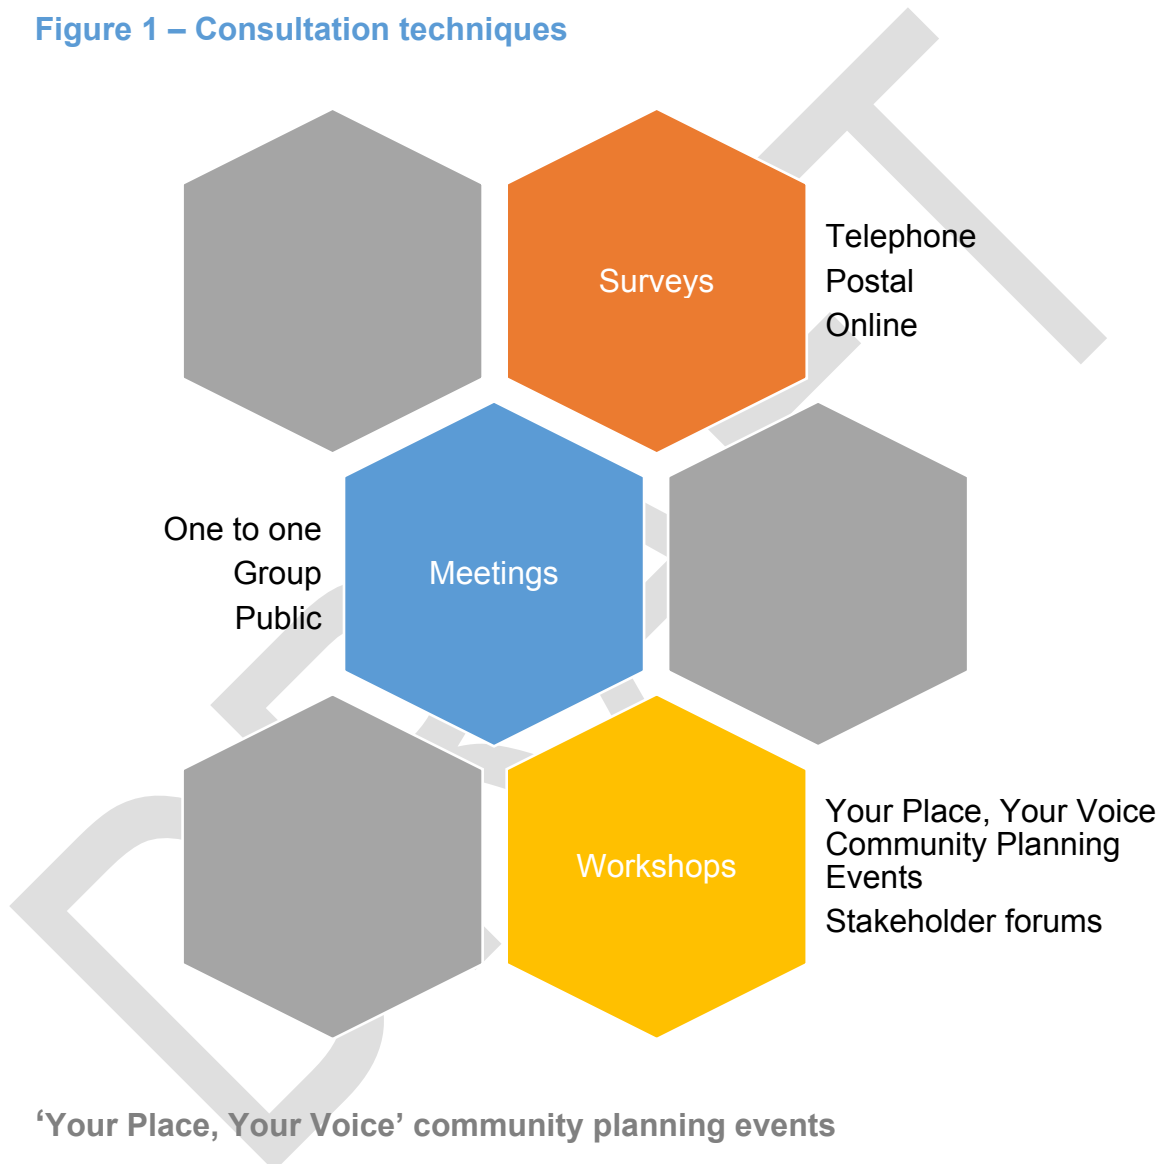

2.2 In order to ensure that your involvement is effective, you are expected to:

- Provide comments in a clear and concise way.
- Provide your comments within the published time period for that consultation activity or event.
- Be aware that all comments will be made publically available.
- Be respectful of other people's views.
- If you are replying on behalf of a group or organisation, state how members of the group have been involved in formulating the response and how the full range of members' views have been represented.

How will the Council consult with stakeholders?

2.3 The type of consultation technique used by the Council will depend on a number of factors including but not limited to who the stakeholders are, the scope of the item being consulted upon and the level of influence stakeholders they will have over it. Figure 1 sets out some of the consultation techniques that may be used by the Council when consulting key stakeholders.

Figure 1 – Consultation techniques

'Your Place, Your Voice' community planning events

2.4 The 'Your Place, Your Voice' (YPYV) is a consultation technique used by the Council to engage with communities about their area. The activities used at the events are designed to be fun and inclusive. The information gathered at these events is used by the Council to shape emerging strategies, plans and projects that will effect that particular community and/or area. More information on Your Place, Your Voice can be found on the Council's website.

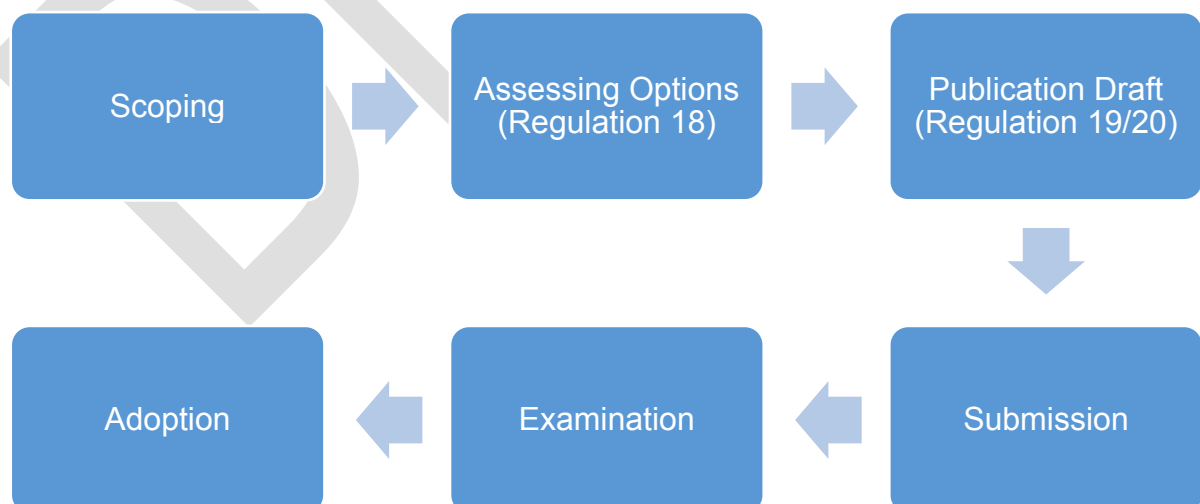

SECTION 3 – PLAN MAKING

3.1 This part identifies how the Council intends to involve the community in the preparation of planning policy documents prepared locally or jointly with other authorities. The timetable for the production of these documents is set out in the Local Development Scheme (LDS), which is available to view on the Council’s website. The LDS is updated as necessary to keep people informed about the types of documents the Council intends to prepare and a timeline for their preparation.

Local Plan Documents

- 3.2 Local Plan Documents including Joint Plans set out a vision for the future development of a place and include a range of strategic, detailed and allocation policies to deliver that vision. Once adopted the policies within Local Plan documents form the main consideration in determining planning applications.
- 3.3 When preparing a Local Plan Document the Council must ensure that it has met all of the statutory consultation requirements set out in the 2012 Town and Country Planning Regulations. Figure 2 sets out the main stages in preparing a Local Plan Document. In addition to the requirements, the Council will carefully consider options for additional community involvement to ensure that all key stakeholders including local residents are made aware of any planning proposals and of the opportunity to comment on them. Appendix 2 sets out more detailed information about what consultation activities the Council will undertake at each of these stages.

Figure 2 – Main stages in preparing a Local Plan Document

3.4 All Local Plan Documents must be accompanied by a Sustainability Appraisal (SA). The first stage in preparing an SA is to consider the scope of the appraisal process. It includes a review of other relevant plans, policies and programmes that relate to the

local area; information on the present state of the local environment (the baseline); a discussion of the local sustainability issues and a series of sustainability objectives that must be considered when preparing Local Plan Documents.

3.5 Consultation will be undertaken on the draft Scoping Report before it is approved by Council. The Environmental Assessment of Plans and Programmes (SEA) Regulations (2004) require that local authorities consult:

- The Environment Agency
- Natural England; and
- Historic England

Supplementary Planning Documents and Interim Planning Guidance Notes

3.6 Supplementary Planning Documents (SPDs) and Interim Planning Guidance Notes are prepared to provide additional detail and guidance to support policies and proposals in the adopted plan. They do not have the same weight or status as policies in the plan and are not independently examined, but once they are adopted, they can still form a ‘material consideration’ in determining planning applications. When preparing a SPD the Council must ensure that it has met all of the statutory consultation requirements set out in the 2012 Town and Country Planning Regulations. The main stages in preparing these documents are set out in Figures 3 and 4. Appendix 3 sets out more detailed information regarding the preparation of Supplementary Planning Documents.

Figure 3 – Main stages in preparing a Supplementary Planning Document

Figure 4 – Main stages in preparing an Interim Planning Guidance Note

Community Infrastructure Levy

- 3.7 A Community Infrastructure Levy (CIL) is a tariff-based charging schedule that applies to specific types of development, such as housing. When planning permission is secured, developers will be required to pay a financial contribution, which is used to part-fund the provision and maintenance of necessary strategic and local infrastructure projects, such as roads, schools, community facilities and open spaces. The stages involved in preparing a CIL and the opportunities for public participation are set out in Figure 5 and detailed further in Appendix 4.

Figure 5 – Main stages in preparing a Community Infrastructure Levy

Responding to consultations

- 3.8 The easiest way to respond to a consultation on planning policy matters is to use the Council's online **Consultation Portal**. Key benefits of registering and making representations online include:
- Ability to view other consultees' representations - once they have been made
 - Search facility - to find representations on different levels of a particular document
 - Ability to update personal details instantly - in order to change your address or email
 - Option to specify preferences - on how you would prefer to be contacted
 - Time saved - by viewing documents/representations as soon as they are available
 - Environmental benefits - of using a paperless online system
- 3.9 We understand that not everyone has access to a computer and therefore, we will also continue to accept written responses by post and make all consultation

documents available in paper copy to read at the Council Offices in Grays, at all local libraries, community hubs and at other venues across the Borough, where appropriate.

- 3.10 All representations that we receive will be made publically available. Personal details, such as postal addresses, email addresses or telephone numbers will remain confidential.
- 3.11 We will seek to acknowledge all representations that we receive to our consultations as soon as possible. Where comments are submitted to us using the Consultation Portal, an automatic email notification will be sent once the comment has been processed.
- 3.12 Once a consultation period has ended, we will seek to log all comments that we have received on the Consultation Portal and will summarise them, where appropriate. The Council acknowledges that an important part of community involvement is to feedback to those who have commented.

Who will we consult on planning policy documents?

- 3.13 Government regulations require us to ensure that certain organisations (known as Specific Consultation Bodies) are consulted at key stages during the preparation of the planning policy documents. These include for example neighbouring Councils (through a process called Duty to Cooperate), Councillors, Historic England, the Environment Agency and utility companies. The full list of consultees is provided in Appendix 1.
- 3.14 In addition to consulting Specific Consultation Bodies, the Council has a further extensive list of organisations, bodies, businesses, consultancies, landowners and individuals that we will consult (known as General Consultation Bodies).
- 3.15 The above list is not exhaustive and is amended or added to as required. In some cases, we have a degree of discretion over whether to notify certain general bodies if the topic of the document in question is not likely to be of interest or relevance to that body. We will target consultation towards those most likely to be affected, for example by setting up workshops on particular topics or hosting public exhibitions in areas of site allocation proposals.
- 3.16 In addition to the 'specific' and 'general' consultation bodies, Planning Policy are committed to involving a wide range of 'other' individuals and organisations, including members of the 'hard to reach' groups. This is to ensure that the Council meets the public sector equality duty (Equality Act 2010), which aims to promote equality, eliminate discrimination and encourage good relations between different groups associated with age, disability, gender/gender reassignment, race, religion and other protected characteristics. Engaging with residents and other stakeholders is key to meeting this duty to better understand the needs of diverse groups.

Duty to Cooperate

- 3.23 The Localism Act and the NPPF created a legal duty on local planning authorities and prescribed public bodies to engage with each other, on an ongoing basis, in the preparation of Local Plans and other planning policy documents relating to development that covers strategic matters. This is known as the 'Duty to Cooperate'.
- 3.24 The Council is intending to produce a Duty to Cooperate Protocol, which will set out how the Council intends to cooperate with other local authorities and other public bodies in the preparation of the Local Plan and other planning policy documents. This will ensure that cross-boundary issues are considered and planned for appropriately.
- 3.25 Appendix 1 lists the local authorities and public bodies that we will liaise with, as part of the Duty to Cooperate.
- 3.26 Once finalised, the Duty to Cooperate Protocol will be published on the Council's Planning Policy website at www.thurrock.gov.uk/planning-policy.

DRAFT

SECTION 4 – DECISION MAKING

What does decision making mean?

- 4.1 The decision making process principally involves the consideration and determination of planning applications.
- 4.2 There are certain types of work that do not require planning permission. This is called '**permitted development**'. Full details of this can be found on the Planning Portal website at www.planningportal.gov.uk/permission/.
- 4.3 Local authorities are required by law to consult individuals and public bodies on various planning applications. The Council take into account all views expressed and all comments made before reaching a decision.
- 4.4 Some proposals, such as those classed as '**major**' applications require the applicant to consult with the local community before a planning application is submitted.

Minor development

- Commercial developments of less than 1,000 square metres or less than 1ha site area
- Changes of use of buildings of less than 1,000 square metres or less than 1ha site area
- Residential development of 1 to 9 dwellings or a site area less than 0.5ha
- Gypsy and traveller sites of less than 1,000 square metres or less than 1ha site area
- Telecommunications equipment proposals
- Mineral or waste proposals of less than 1,000 square metres or less than 1ha site area

Major development

- Commercial developments above 1,000 square metres floor space or a site area of 1ha or more
- Changes of use of buildings above 1,000 square metres floor space or a site area of 1ha or more
- Residential developments of 10 or more dwellings or a site area of 0.5ha or more
- Gypsy and traveller sites above 1,000 square metres or a site area of 1ha or more

Pre-application stage

- 4.5 The National Planning Policy Framework (NPPF) recognises that early engagement has significant potential to improve the efficiency and effectiveness of the planning application system for everyone.
- 4.6 The level of engagement should be proportionate to the nature and scale of the proposed development. The more controversial the proposal, the broader the range of consultation methods should be in order to allow as many people as possible to have their say.

Planning Performance Agreements

The Council is committed to dealing with major planning applications in a timely and effective way. The Council promotes the use of pre-application discussions for all proposals. However, for some proposals a Planning Performance Agreement (PPA) is encouraged as they can provide bespoke ongoing advice. In order for all parties to gain maximum benefit from a PPA it is essential that there is engagement between developers, the Council, the local community and relevant stakeholders. The level of community engagement will be dependent upon the type of development proposal and will be identified in the PPA.

- 4.7 Early engagement with the Council, by applicants, before an application is formally submitted is encouraged so that the Council can give informal comments and help overcome any potential difficulties that may arise. It is considered to be a valuable way to improve understanding and consider any likely planning policy, design or other issues that may arise. The more issues that can be resolved at the pre-application stage, the more likely it is to result in a good quality and acceptable development.

Local communities

- 4.8 The Council encourages developers for large scale development proposals to involve local communities before the formal application stage begins. This enables local communities to put forward initial constructive comments and suggestions, and may lead to fewer objections being made further down the line, which are then material to the determination of the application.
- 4.9 It is recommended that involvement of local communities should be in the form of meetings, presentations and/or exhibitions. Developers are encouraged to speak with

the Council before arranging these events, so that they can be undertaken in a manner that is sensitive to the local community's concerns. However, any pre-application engagement undertaken with the community is done so by the developer, independently of the Council. Therefore, it is important that any comments being made are directed to the developer and not to the Council at this stage.

Applying for planning permission

- 4.10 Making a planning application online is the most efficient way to submit your proposals. You can submit an application to us online via the Planning Portal website - www.planningportal.gov.uk/planning/applications/.
- 4.11 The Planning Portal is a quick and easy way to submit a planning application. You can upload supporting documents and plans, and pay your application fee online. You also receive immediate verification of your submission when using the Portal.
- 4.12 Once the Council receives a planning application and validates it, it should make a decision on the proposal as quickly as possible. The time limits are usually 13 weeks for a 'major' development and 8 weeks for all other types of development (unless the application is subject to an Environmental Impact Assessment, in which case a 16 week time limit applies). In some cases, the statutory deadline can be extended via a mutual agreement (either through Article 29 agreements or Planning Performance Agreements); this enables both parties the opportunity to resolve certain problems, avoiding the unnecessary refusing of a development proposal that could otherwise be acceptable.

Having your say on planning applications

- 4.13 You can make comments on planning applications up to the expiry date. We will use our discretion and take into account any comments received up until we prepare our recommendation report.
- 4.14 Any comments you make will be a matter of public record and they will be visible on the Council's website and for public inspection at the Council Offices. We reserve the right to obscure that we consider to be inflammatory before being displayed on the website.

Who will be consulted on planning applications?

- 4.16 There are a range of statutory consultees that must be consulted, depending on the type and nature of the planning application. These are set by the Planning Regulations¹

Adjoining and opposite neighbours

¹ The Town and Country Planning (Development Management Procedure) (England) Order 2015

4.17 Owners and occupiers of any land which adjoins that to which a planning application relates and neighbours opposite, are informed and consulted on the application.

General public

4.18 The Council informs the general public on planning applications in a more generalised way. All planning applications that we receive are published on the Council's website. In the case of major or controversial applications, where the Council considers there to be a wider impact resulting from a development proposal, the Council also displays public site notices in proximity of the application site. Adverts will also be placed in the local newspaper for certain development proposals such as major applications and applications to carry out works to Listed Buildings.

Making a decision on planning applications

4.19 There are numerous steps that are taken that lead to a decision. These stages are set out in Appendix 5.

4.20 Once a decision on an application has been reached, we will send out a decision notice to the applicant or their agent, where applicable.

Appeals

4.21 Where a planning application is refused, the applicant may appeal against the decision. Where an application goes to appeal, the Council will notify interested parties, such as neighbours and will give them the right to submit their views in writing or in person, depending on the method of appeal.

Material Considerations

When a decision is made on a planning application, only certain issues are taken into account. These are often referred to as 'material planning considerations'. Weight attached to material considerations is a matter of judgement for the decision-taker, however they must demonstrate that in reaching that decision that they have considered all relevant matters. Further detail on this can be found in Appendix 6.

National Significant Infrastructure Projects

4.22 Nationally Significant Infrastructure Projects (NSIPs) are usually large-scale developments, such as, new harbours, power generating stations (including wind farms) and electricity transmission lines, which require a type of consent known as 'development consent'. The Planning Inspectorate is responsible for operating the planning process for NSIPs.

4.23 Any developer wishing to construct a NSIP must first apply to the Planning Inspectorate for consent to do so. The Planning Inspectorate examines the application and makes a recommendation to the relevant Secretary of State, who then decides whether to grant or refuse development consent.

DRAFT

SECTION 5 – NEIGHBOURHOOD PLANNING

What is Neighbourhood Planning?

- 5.1 Neighbourhood planning gives local communities the opportunity to draw up their own plans and proposals for shaping the future of their areas, as long as they comply with national and local strategic policies.
- 5.2 There are three types of neighbourhood planning available to communities:
- **Neighbourhood Plan** – enables a community to establish a vision and provide planning policies for the future use and development of land in the local community area. Once adopted, a Neighbourhood Plan will form part of the Council's local development plan, against which all planning applications and proposals will be decided.
 - **Neighbourhood Development Order** – allows communities to grant planning permission for certain types of development that they would like to see happen in their area.
 - **Community Right to Build Order** – allows communities to grant planning permission for local small-scale developments that they would like to see, such as, housing, community facilities or shops.
- 5.3 Neighbourhood planning cannot be used to block the building of the homes and businesses considered to be necessary to meet the Borough's current and future needs. However, it can be used to influence the type, design, location and even mix of new development.

What is the Process for Preparing a Neighbourhood Plan or Development Order?

- 5.4 There are five main stages in preparing a Neighbourhood Plan or Development Order. These are:
- A. Set up a Neighbourhood Forum and agree its planning area**
- 5.5 The community decides on the 'Neighbourhood Area' that they wish to prepare a Neighbourhood Plan or Development Order for. The only bodies that can produce a Neighbourhood Plan or Development Order in Thurrock are designated Neighbourhood Forums.

- 5.6 A Neighbourhood Forum must be a group of at least 21 people, who either live in or work in the neighbourhood area, or are elected members for all or part of the neighbourhood area.
- 5.7 Both the Neighbourhood Area and the Neighbourhood Forum will need to be formally approved by the Council to ensure that they make sense for planning purposes and do not overlap with any other neighbourhood planning area.

B. Prepare your Neighbourhood Plan or Development Order

- 5.8 The preparation of the Neighbourhood Plan or Development Order is the most significant stage in the neighbourhood planning process. The Neighbourhood Forum must gather ideas for the area and develop proposals for a Neighbourhood Plan or Neighbourhood Development Order.
- 5.9 Everyone who lives or works in or around the local community must be appropriately consulted on the proposals. This includes residents, local businesses and landowners, as well as relevant local, regional and national organisations and agencies. The Neighbourhood Planning (general) Regulations 2012 set out the requirements for consultation and publicity at key stages with those living or working in the neighbourhood area, or with those who may have an interest in or are likely to be affected by the proposals (e.g. business). These are the minimum requirements, but engagement with all members of the local community should be an ongoing process from the beginning, to ensure the plan is prepared with high levels of involvement and has local support at the referendum stage.
- 5.10 In preparing a neighbourhood plan or development order, proposals and policies must be in accordance with:
- International, European and national designations (e.g. heritage and natural environment), and European environmental and human rights laws;
 - National planning policies and laws, including the National Planning Policy Framework;
 - Strategic policies and designations of the Council's adopted development plan – plans and orders can propose more, but not less development than is required for the area by the adopted development plan.

C. Independent Examination

- 5.11 Once a draft Neighbourhood Plan is prepared, it will be checked by an independent examiner. He/she will consider whether it meets the right basic standards and they will consider any representations of objections to the proposals.

- 5.12 The independent examination may be carried out in writing, with the examiner considering written representations, or, it may be held as a public meeting.
- 5.13 If the examiner considers that the plan or order does not meet the right standards, he/she will suggest changes and recommend whether it should proceed to a referendum. The Council will then consider the examiner's views and decide whether to make those changes. If significant changes are recommended, then the Neighbourhood Forum may wish to re-consult with the local community before proceeding.

D. Community Referendum

- 5.14 Once the examiner approves the Neighbourhood Plan or Order, it will need to be put to a community referendum. This ensures that your local community has the final say on whether the plan or order should come into effect.
- 5.15 Anyone who lives in the area that the Plan or Order covers, and who are registered to vote in local elections, are entitled to vote in the referendum. It may be appropriate for people in neighbouring areas to vote in the referendum, if the proposals within it are likely to impact on the too.
- 5.16 In the case for a Neighbourhood Plan for a 'Business Area' a separate referendum will also be held for businesses (non-domestic rate payers). Each business will have one vote.
- 5.17 More than 50% of people voting in the referendum need to vote in favour of support, for the plan to be taken forward for formal adoption by the Council.

E. Legal adoption of your Neighbourhood Plan or Development Order.

- 5.18 If more than 50% of people voting in the referendum support the Neighbourhood Plan, then the Council must bring it into effect and legally adopt it as part of the statutory local development plan for the area. If there is conflict between the results of the resident and business referendums, then the decision on adoption of the Neighbourhood Plan will rest with the Council.
- 5.19 Once the Plan or Order has been formally adopted by the Council and brought into legal effect, the Council will be legally obliged to take it into consideration when assessing planning applications and other proposals for development in the area.

What is the process for preparing a Community Right to Build Order?

- 5.20 The process for preparing a Community Right to Build Order is similar to the process of preparing a Neighbourhood Development Order. The main difference is that orders are prepared by a local community organisation, not a designated neighbourhood forum.

5.21 To be eligible to develop a Community Right to Build Order in a particular neighbourhood area, the community organisation or group must consist of at least 10 members, all of whom must live in that neighbourhood area, in separate homes to each other. When an order is proposed, at least half of the organisation's members must live in the area. The organisation must also exist to further the economic, environmental and social well-being of the area, and any profits made as a result of Community Right to Build Orders must be used for the good of that community, not for private gain.

5.22 Both the Neighbourhood Area and the local community organisation need to be approved by the Council, to ensure they make sense for planning purposes and do not overlap with any other neighbourhood planning area.

What role does the Council play in Neighbourhood Planning?

5.23 Under the Town and Country Planning Act 1990 (as amended), the Council has a statutory duty to assist communities in the preparation of Neighbourhood Plans and Orders, and to take plans through a process of examination and referendum.

5.24 The Council has six principal roles in the process of neighbourhood planning:

- To formally designate a neighbourhood area, for the purposes of neighbourhood planning.
- To provide technical advice and support for the preparation of the Plan.
- To validate and check a Plan prior to its submission for independent examination.
- To cover the costs of an independent examination into the draft Plan.
- To organise and cover the costs of a referendum, to ensure there is public support for the Plan or Order.
- To 'make' the Plan or Order, if it has been prepared correctly and which is supported by the local community.

5.25 In addition, subject to the availability of resources, the Council will endeavour to support communities undertaking neighbourhood planning by:

- Providing general guidance and advice.
- Attending meetings at key stages.
- Making available on the Council's website relevant studies and other background information.

- Providing information on the Council's website about planning policy and planning designations.
- Advising on any national or local funding opportunities.
- Providing details of relevant contacts. For example, the Environment Agency, Historic England and Highways England.

5.26 The Council must be realistic as to what it can do to support neighbourhood planning in a cost-effective and time-efficient way. Support and assistance the Council provides will be proportionate to the nature of the plans being prepared, the stage reached in plan-making and the impact on the wider community.

	<p>has been approved and where it can be viewed.</p> <ul style="list-style-type: none"> • Notify those who requested to be notified that the Charging Schedule has been approved. • Send a copy of the Charging Schedule to each relevant consenting authority. 		

Appendix 5 - Stages of a Planning Application

Stage	We will	You Can
<p>Stage 1 – Application is registered</p>	<ul style="list-style-type: none"> • Send a letter of acknowledgement to the applicant with a target date for making a decision. 	
<p>Stage 2 – Application is publicised</p>	<ul style="list-style-type: none"> • Publish the application by means of sites notices and/or advertisements in the local newspaper. • Send letters to neighbouring properties, including businesses. • Publish the application on our website. 	<ul style="list-style-type: none"> • The applicant may wish to speak to their neighbours themselves. • Support or object, in writing or email, to any planning application as long as they are received by the Council before the expiry time. • Track the progress of any current application via the Council’s website.
<p>Stage 3 – Views of relevant bodies</p>	<ul style="list-style-type: none"> • Seek the views of agencies such as the Highway Authority and the Environment Agency, if the application could have an effect on roads, traffic or flood plains, for example. 	
<p>Stage 4 – Inspection of the site</p>	<ul style="list-style-type: none"> • Inspect the site to gather information about it and the surrounding area. 	

<p>Stage 5 – Application is assessed</p>	<ul style="list-style-type: none"> Assess the proposal against national policies, government guidance and local planning policies. 	
<p>Stage 6 – Consideration of material effects</p>	<ul style="list-style-type: none"> Consider comments made by neighbours and relevant bodies. Consider the effects of the proposal on neighbours and matters such as highway safety. 	
<p>Stage 7 – Negotiate any amendments</p>	<ul style="list-style-type: none"> Negotiate some points of the application to reach a positive decision, where possible. 	
<p>Stage 8 – Decision is reached</p>	<p>Delegated decision:</p> <ul style="list-style-type: none"> Prepare a report. Senior Officers of the Council will consider and agree the recommendations. Inform anyone who has submitted written to comments to us, the outcome of the decision. <p>Committee decision:</p> <ul style="list-style-type: none"> Applications that we feel are likely to have a 	<ul style="list-style-type: none"> Attend Planning Committee – usually held every 4 weeks. Members of the public are allowed to speak at the meeting. Applicant may appeal against a refusal or against any condition of approval. By law, no one else has the right of appeal.

	<p>significant impact, or those that are ‘called in’ by Councillors are taken to the Council’s Planning Committee for determination. In such circumstances we will:</p> <ul style="list-style-type: none"> • Prepare a report and present it to Members of the Planning Committee. • Inform anyone who has submitted written comments to us, the outcome of the decision. 	
--	---	--

DRAFT

Appendix 6 – Material Considerations

Material considerations can include, but are not limited to:

- Local, strategic, national planning policies and policies in the adopted development plan of an area.
- Emerging plans which have already been through at least one stage of public consultation.
- Pre-application planning consultation carried out by, or on behalf of the applicant.
- Government and Planning Inspectorate requirements – circulars, orders, statutory instruments, guidance and advice.
- Previous appeal decisions and planning inquiry reports.
- Principles of Case Law held through the Courts.
- Loss of sunlight (based on Building Research Establishment guidance).
- Overshadowing/loss of outlook to the detriment of residential amenity (though not loss of view as such).
- Overlooking and loss of privacy.
- Highways issues: traffic generation, vehicular access, highway safety.
- Noise or disturbance resulting from use, including proposed hours of operation.
- Smells and fumes
- Capacity of physical infrastructure e.g. in the public drainage or water systems.
- Deficiencies in social facilities e.g. space in schools.
- Storage & handling of hazardous materials and development of contaminated land.
- Loss or effect on trees.
- Adverse impact on nature conservation interests & biodiversity opportunities.
- Effect on listed buildings and conservation areas.
- Incompatible or unacceptable uses.

- Local financial considerations offered as a contribution or grant.
- Layout and density of building design, visual appearance and finishing materials.
- Inadequate or inappropriate landscaping or means of enclosure.

DRAFT

Appendix 7 – Further information and advice on planning

The Planning Portal

The Planning Portal is the Government's online tool for planning and building services. It provides information about the planning system, allows you to submit planning applications and find out about development in your area.

Website: www.planningportal.gov.uk

Department of Communities and Local Government (DCLG)

The DCLG website provides general information on the planning system, including the latest national planning policy, decisions on planning, research and statistics.

Website: www.gov.uk/government/organisations/department-for-communities-and-local-government

Planning Aid England

Planning Aid England, which is provided by the Royal Town Planning Institute, offers free, independent and professional planning advice to individuals and communities who cannot afford to pay professional fees.

Website: www.rtpi.org.uk/planning-aid

The Planning Inspectorate

The Planning Inspectorate deals with planning appeals, national infrastructure planning applications, examinations of local plans and other planning-related and specialist casework in England and Wales.

Website: www.gov.uk/government/organisations/planning-inspectorate
