Introduction

This document outlines the commitment of Thurrock Council and Thurrock's Clinical Commissioning Group (CCG) to address the areas of concern, which were identified in Thurrock's Local Area SEND Inspection, which took place 4th-8th March 2019.

The document highlighted three key areas:

- **Area of Concern 1:** Inaccurate and incomplete records and ineffective oversight meant that leaders did not know the whereabouts of some children and young people and what provision they have.
- **Area of Concern 2:** Quality assurance is not rigorous enough to ensure effective governance and oversight across the provision and services for 0 to 25-year-olds with SEND. Leaders are reliant on working relationships rather than processes. Leaders are over reliant on the limited information given to them by educational providers about the quality of the provision they purchase.
- **Area of Concern 3:** Education Health and Care Plans (EHC Plans) and the annual review process are of poor quality. The local authority has no system in place to make sure that relevant professionals and services are notified when EHC Plans need reviewing or updating. Professionals are not routinely informed of requests to submit written information within specified timescales. Too often EHC Plans are out of date and do not accurately reflect the needs or views of children and young people, or the views of the families. The information from EHC Plans and annual reviews is not used to inform the commissioning of services, particularly, but not exclusively, for young people between the ages of 19 and 25 years.

Our Written Statement of Action has been produced in partnership with the Thurrock Council, CCG and Public Health to ensure that all key partners are working together to address the weaknesses identified in the recent inspection. In addition, we have shared the document with our Children's Overview and Scrutiny board, young people, our parent groups, and a focus group of parents and carers recognising the importance of shared ownership and commitment to children and young people with SEND.

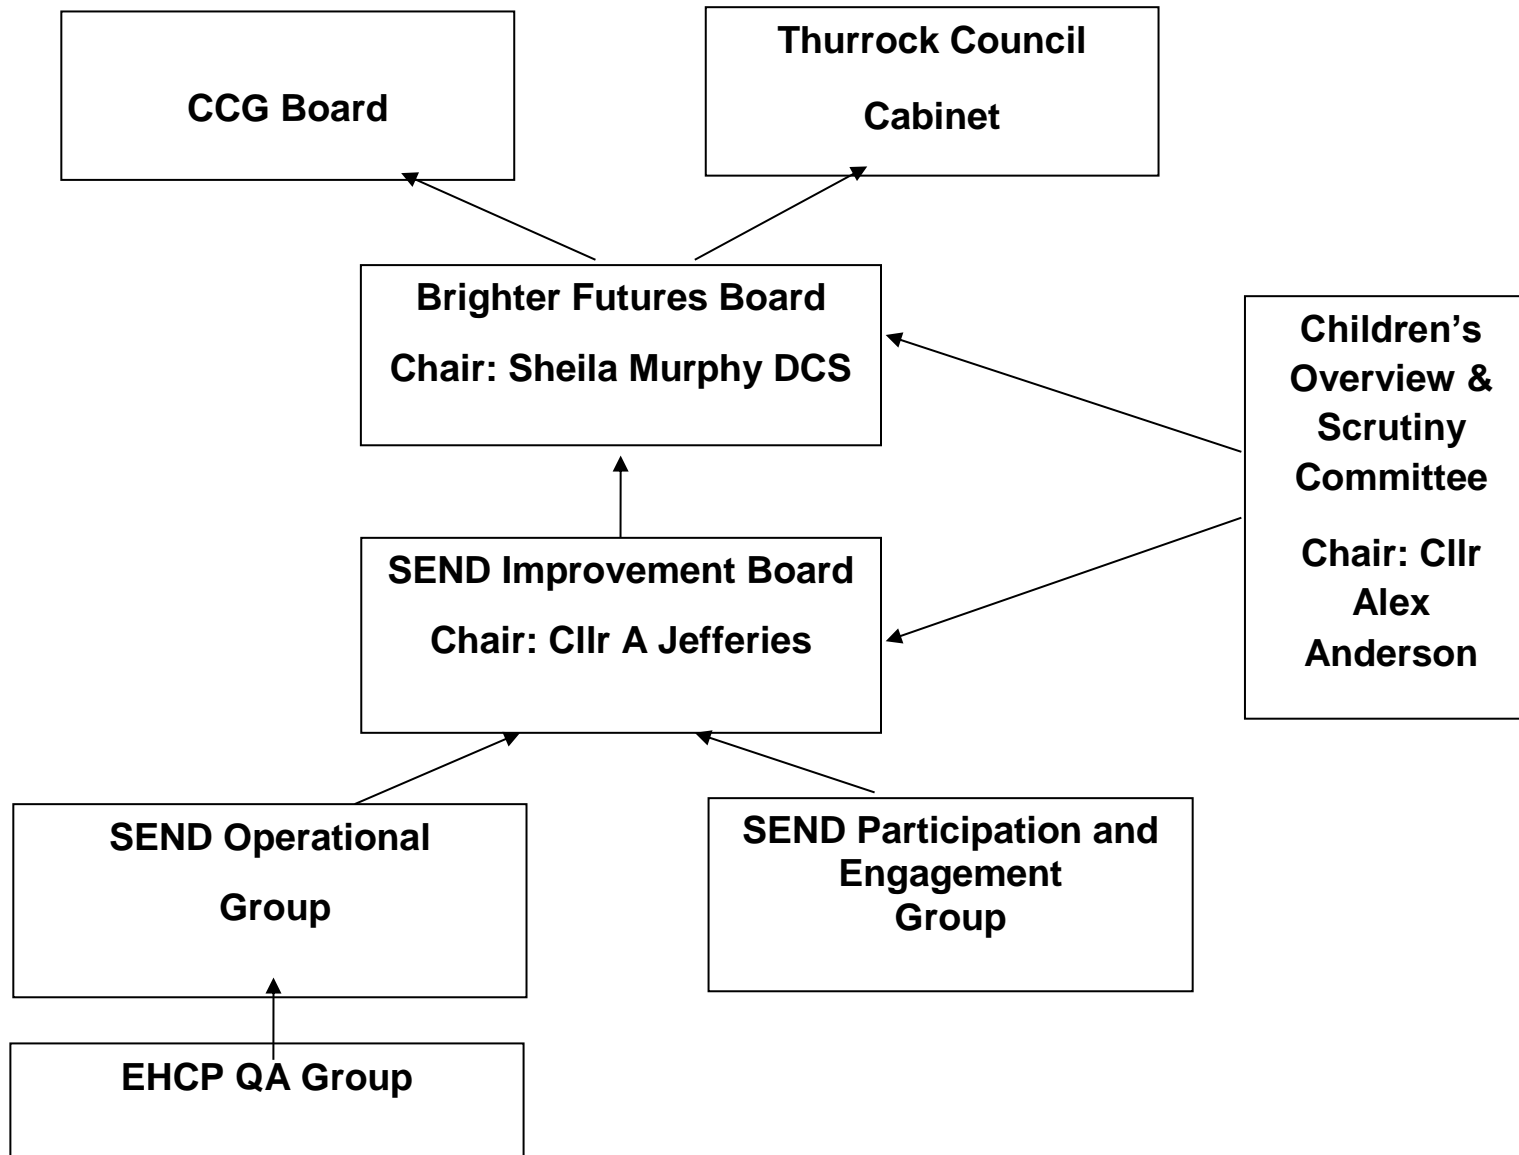

The monitoring of this statement of action will take place on a quarterly basis with the Department for Education (DfE) and NHS England, and implementation will be monitored and scrutinised through the Thurrock SEND Improvement Board, which is chaired by the Portfolio Holder for Education and Health. Our Operational SEND Group will oversee our work Plans and monitor internal performance measures to ensure we have a robust system of quality assurance in place.

Thurrock has a long standing commitment to an inclusive system of education health care and support that actively enables access and full participation to all aspects of community life. This is in compliance with the Salamanca Statement and Framework for action on Special Needs (1994), the UN Convention on the Rights of the Child and is embedded in the Equality Act 2010.

SEND Governance Structure

Governance Structure

Thurrock Council working in partnership with Thurrock CCG and Parent Carer Forum has undertaken a review of its Governance of the SEND work across the Local Area.

Children's Overview and Scrutiny will monitor the impacts associated with this plan on bi-monthly basis.

Brighter Futures – Children's Partnership provides the overarching governance arrangements for SEND, work to address the issues within the written statement of action and the wider SEND strategy will be reported to the Brighter Futures – Children's Partnership on a six monthly basis.

SEND Improvement Board meets six weekly and is chaired by the Portfolio Holder for Education and Health. The membership is made up of senior management from across the Partnership including the CCG and Public Health and the Parent Carer Forum.

SEND Operational Group meets six weekly to ensure the work programme set out in the written statement of action and the wider SEND improvement priorities are on track ensuring effective action. This group reports to the SEND Improvement Board. Membership of this Group is cross partnership and includes operational leads from the LA, CCG, Public Health and Parent Carer representation.

The SEND Participation and Engagement group meets quarterly co-chaired with the Parent Carer Forum to enable a wide range of co-production including Health Education and Social Care across all areas of SEND improvement.

EHCP Quality Assurance Group – this group meets monthly and will oversee the QA process of EHCP's it will report into the operational group and quarterly reports will be provided to the SEND Improvement Board.

RAG RATING KEY

RED	The action has not yet started or there is significant delay in implementation. The action must be prioritised to bring it back on track to deliver.
AMBER	The action has been started but there is some delay in implementation. The action must be monitored to ensure the required improvement is delivered.
GREEN	The action is on track to be completed by the agreed date. Evidence is required to show that the improvement has been embedded and sustained.
BLUE	The action has been completed and is now fully embedded.

Written Statement of Action

Area of concern 1: Inaccurate and incomplete records and ineffective oversight meant that leaders did not know the whereabouts of some children and young people and what provision they have.

Aim of this programme of work:

To ensure that the Local Authority knows where all children and young people are placed and what provision they are accessing. To develop processes to confirm the quality of provision and the welfare of children and young people placed in different settings particularly those placed out of the authority.

We will undertake a review of SEND, EHC Plan records and ensure that they are updated by the SEN team. This will be audited monthly by members of the senior manager team and reported through our performance management framework to Directors Board and the SEND Improvement Board.

KPIs / Targets for assessing overall success of the programme

- All EHC Plans are reviewed and quality assured to meet statutory assessment timelines

The system at any time can produce this information readily.

An accurate list of all C&YP with EHC Plans:-

- Where they are placed
- Date the EHC Plan was reviewed and when next review is due
- For those placed in residential /out of authority or home educated dates of the last monitoring visits to check welfare
- Up to date information around children/young people who are “awaiting specialist provision”
- Clear processes in place to ensure we are tracking those that may be missing education

Area of Concern 1: Inaccurate and incomplete records and ineffective oversight meant that leaders did not know the whereabouts of some children and young people and what provision they have

Aims: To ensure that the Local Authority knows where all children and young people are placed and what provision they are accessing. To develop processes to confirm the quality of provision and the welfare of children and young people placed in different settings particularly those out of the authority.

Progress will be governed by SEND Improvement Board

A1 progress update – December to Mid-January 2021:

Actions **a) - d)** around the management realignment have been completed. Action **e)** remains ongoing with evidence of current progress outlined below.

1. EHC Plans completed within 20 week timeframe for November was 75.9%. There was a total of 2 EHC plans that will be reported as Valid Exceptions. Valid Exceptions are granted when an EHC Plan is finalised after 20 weeks due to exceptional circumstances (schools closed for more than four weeks/ parents requesting a delay/ halt in the process/ delays due to Covid-19). With the Government announcement of a national lockdown due to the increases in the number of Covid the number of valid exceptions could potentially change – we will continue to monitor this closely as this can potentially lead to a decrease in plans completed within the 20 week timeframe.
2. COVID action plan developed around delays to some actions – this has been reviewed and timelines and have amended with approval from SEND Board. This is reported back via the SEND Operational Group and then onto the SEND Improvement Board. An ongoing risk remains around the current position due to COVID 19 and the potential for further disruption with schools having to self-isolate specific year groups as a result of the pandemic. This was reviewed at the October SEND Improvement Board. The Board recognised that engagement remains a key risk and as such deep dive of these activities will be presented to the January 2021 SEND Improvement Board.
3. Clear management oversight relating to specialist provision – QA of all provision has been undertaken and recommendations have been implemented around the plans – a further report was provided to the board in November which outlined the schedule of visits over the coming academic year. This will identify an action any feedback around the educational offer provided keeping the clear focus on the outcomes for the child/young person. We are continuing to monitor closely all of our out of borough placements to ensure the children are continuing to receive good educational opportunities whilst we remain in the national lockdown.

A2. Records and oversight of all Post 16 provision for CYP with SEND to be reviewed to ensure accuracy of placement for the young person in line with Ofsted Written Statement of Action

- a) Identify additional funding stream for additional capacity through a business case to Director's Board
- b) Recruit 3 additional post 16 officers with careers advice and guidance qualifications and 1 tracking officer
- c) Create a quality assurance framework for post 16 provision using regional guidance to be

A2 Progress update: December 2020- January 2021: A number of actions [(a) (b) (g) (h) (i)] have been completed. However, we have had some issues around timescales due to COVID restrictions for actions [(c) (d) (e) (f)]. These revised timescales have been approved by the SEND improvement board in July 2020 and below is an overview of the activity which has taken place including information around support for young people during the current national lockdown and subsequent closure of face to face learning for children & young people apart from key worker and vulnerable groups.

1. Post 16 providers have established focus groups in their institutions to enable the voice of the YP to be heard, this has been actioned and a partnership agreement has been developed. Information from the partnership agreements will inform practice from January 2021.
2. Current work is progressing to ensure we are able to support young people with the newly established internship opportunities that will be generated in 2021 – which are addressing the issues around post 16 opportunities. The People's Board have approved the apprenticeship and supported internship programme which will commence in January 2021 – this will link into Kick Start programme which will offer 6 months paid work placements for young people.
3. In response to direct feedback from parents around understanding the post 16 offer available locally, Four videos has been produced around our post-16 provisions at TACC and SEC. These will be added to the Local Offer in January 2021.
4. The QA framework has been drawn up, consulted on with Social Care and Health and is a standing item on the QA Local Offer Strategy Group Meeting which will be held on January 28th. The QA framework will form the basis of annual conversations with Post 16 providers during the LA's annual conversation with post 16 providers. These annual conversation will have an education, Social Care and Health focus thus ensuring we are looking at all aspects of the EHC Plan.
5. Further meetings between Education, Social Care and Health and PATT service have resulted in an innovative Parent Forum to provide advocacy service, training and updates from LA and partner organisations to parents of SEND YP as well as careers delivery to SEND YP.
6. The Local Offer is being enhanced through an innovative website (funded by LA) to provide employability skills to all SEND YP in the borough with the outcome of a digital CV showcasing their soft skills promoting employability.
7. **16-18** year old SEND Not in Education Employment or Training/Unknown is currently at 3% which is significantly below the Eastern Region of 7.9% (September 2020 is the latest comparative data) and National of 10% (September 2020 is the latest comparative data) and shows a positive picture.

8. **16-25** year old SEND learners Not in Education Employment and Training is currently at 13.2% - national statistic is at 63.4% due to Thurrock having a strong tracking team which enables us to have a clear data set around where our young people are. This figure relates to a wider cohort than the 16-18 year olds.

<p>A3: Governance of SEND Service will be reviewed to ensure, there is effective oversight all children and young people.</p> <p>a) SEND Improvement Board and SEND Operational Board to be established</p> <p>b) Agree terms of reference for the boards and arrangements for communicating decisions and reporting lines</p> <p>c) Board to be Chaired by Portfolio Holder, and DCO, ADES, ADCS, CD attend board meetings</p> <p>d) Embed the operational aspects of governance structures, working groups and forums established by WSoA and already in existence in order to ensure aligned and effective implementation of WSoA.</p> <p>e) The board will hold performance of SEND department to account through monthly performance data monitoring</p>	<p>July 2019</p> <p>July 2019</p> <p>July 2019</p> <p>Jan 2020</p> <p>Jan 2020</p>	<p>ADES</p> <p>DCO</p> <p>ADCS</p> <p>CD</p> <p>CD</p>	<p>Outcomes and measures</p> <ul style="list-style-type: none"> • Increased senior management oversight • Challenging but realistic targets are set • Clear lines of accountability • Poor performance is challenged and addressed <p>And as a result:</p> <p>Membership agreed. The chair of the board is the PFH for Education and Health and OFSTED Regional Lead is also a member</p> <p>New board meeting on 14th June to oversee the development of the Written Statement of Action</p> <p>Board have met and signed off the re-submitted WSOA.</p> <p>The performance framework will demonstrate a system wide approach to children and young people with SEND</p> <p>Performance of department will improve and children and young people's experience of support arrangements for SEND will improve</p>

The Board have moved to monthly meetings to ensure they are robustly tracking progress. These groups are made up of a health, social care and schools to ensure we have a whole systems approach to monitoring progress. Children’s Overview and Scrutiny are provided with regular reports and have informed changes in practice – an example of this relates to a question from O&S around one of the letters that the SEND team produce and the inclusion of a website – this has been actioned. <p>Impact</p> <ol style="list-style-type: none"> Monthly data returns demonstrate that the % EHCPs finalised within the 20 weeks timescales has remained above the published data for England (60%) and our statistical neighbours and the East of England averages (65%). A4 Progress update – December to Mid-January 2021:

All actions [(a) – (e)] have been completed. Please see below for an overview of the systems work that has been undertaken

1. Strategic Lead and caseworker supervisors continue to review case files on Synergy – EHCP/ Children Missing Education, Elected Home Educated and Post 20 year olds. The reviews have highlighted some actions that caseworkers need to undertake – these have been followed up and actioned.
2. Data cleansing activities are ongoing- review of anomalies is ongoing and system is being updated – to ensure that the data is accurate and current thus addressing some of the Ofsted concerns around data quality.
3. Staff training was rescheduled during December to allow for data cleansing work to be carried out. Annual review data has been checked by each caseworker and any anomalies are being checked by case worker supervisors. This will enable an accurate report of when each annual review is due, has taken place and paperwork completed, final amended EHCP sent. A weekly report is provided to the ADES around the progress relating to annual reviews

Impact:

4. Casefiles and data is more accurate and caseworkers are able to inform schools which annual reviews are due, update and amend plans in a timely manner and identify where plans need amending thus allowing annual reviews to be completed within timescales.
5. Staff have a better understanding of some of the difficulties faced by some of the children they represent. Staff have a clear understanding of the revised processes/ letters automatically generated by the system. Fewer letters are needed. More person centred approach via agreed phone calls at each step of the process and letters are more person centred for families.

A5 Progress update – December to Mid-January 2021

Actions [(a) – (g)] have been completed. The systems integration project will be completed in two phases.

1. Whilst this was originally indicated red against the original timescale of March 2020 the SEN data merge is now complete and the second phase (Portals) is a new IT project in its own right. A link with key operational staff has been established to begin documentation of the current business process and Business Analysis workshops will arranged with the service once the demo with Medway Council has been received. The workshops will be needed to collate the business process requirements, which will be required to inform the portal configuration, to ensure that the implementation ‘adds value’ The deadline date of March 21 has therefore been applied for completion of portal implementation plan with informed portal project dates to be confirmed to the board once the business analysis workshops are complete. This has therefore been changed to ‘amber’ for January 21 and will be amended to ‘green’ once the workshops are physically confirmed.

Area of Concern 2: Quality assurance is not rigorous enough to ensure effective governance and oversight across the provision and services for 0 to 25-year-olds with SEND. Leaders are reliant on working relationships rather than processes. Leaders are over reliant on the limited information given to them by educational providers about the quality of the provision they purchase.

Aim of this programme of work:-

- (i) Ensure relevant governing bodies (e.g. SEND Improvement Board and Health and Wellbeing Board) have access to a range of indicators relating to outcomes, service quality and performance to assess how well the local area is meeting the needs of C&YP with SEND**
- (ii) Ensure the development and application of the performance framework engages children and young people with SEND and their parents**
- (iii) Ensure there is a robust quality assurance framework for those children and young people with EHCPs placed outside Thurrock that ensures they make progress, promotes their independence and ensures their wellbeing and safety.**
Strengthen the quality assurance arrangements for the provision of post 16 education for students with SEND and specialist school provision
- (iv) Ensure key services for C&YP operate within a high quality QA framework that embeds co-production – particularly with regard to the drafting and review of EHCPs (section 3 below, post 16 provision, provision for children and young people placed out of borough. This will be compliant with the SEND Code of Practice (2015).**

KPI's/Targets for assessing overall success of the programme:-

- a) Developing a strategic data dashboard covering education, health and social care provision which includes outcomes and indicators of service quality and performance for use by strategic managers and governing bodies responsible for overseeing the provision of services of C&YP with SEND and taking policy/commissioning decisions (see area concern 1)
- b) Developing a QA framework for key aspects of service delivery with a range of partners with priority being given to the following:
 - EHC Plans include the views, wishes and feelings of children, young people, their families and carers
 - EHC Plans are clear, concise, understandable and accessible
 - EHC Plans set out how partners will co-ordinate and work together to support the child, young person, parent and carers
 - EHC Plans clearly identify need and include specific outcomes

The framework will also be inclusive of those placed in independent/non maintained/residential settings and special circumstances.

- c) Reviewing post 16 local offer and how it links into the adult social care transitional pathway.

Area of Concern 2: Quality assurance is not rigorous enough to ensure effective governance and oversight across the provision and services for 0 to 25-year-olds with SEND. Leaders are reliant on working relationships rather than processes. Leaders are over reliant on the limited information given to them by educational providers about the quality of the provision they purchase.

Aims: Ensure relevant governing bodies (e.g. SEND Improvement Board and Health and Wellbeing Board) have access to a range of indicators relating to outcomes, service quality and performance to assess how well the local area is meeting the needs of C&YP with SEND and key services for C&YP operate within a newly refreshed QA framework.

Ensure the development and application of the performance framework engages children and young people with SEND and their parents.

Ensure there is a robust quality assurance framework for those children and young people with EHCPs placed outside Thurrock that ensures they make progress, promotes their independence and ensures their wellbeing and safety.

Strengthen the quality assurance arrangements for the provision of post 16 education for students with SEND and specialist school provision.

B1 Progress update:- December to Mid-January 2021

Action **(a)** has been completed. Actions **(b)** and **(c)** have been delayed due to COVID 19. We are working with partners including parents and carers to review the data sets. Outlined below is an overview of the work that has been undertaken to date.

1. The enhanced data set was presented to the Participation and Engagement Group, SEND Operational Group and SEND Improvement Board in November and approved. This will enable the capture of more data to inform the ongoing development of practice and included health and social care data and goes through our internal quality data checking.

B2: Enable the voice of Parents/Carers to ensure the quality assurance of all areas of support for Children and young people with SEND

- a) Write, publish and complete the strategy and action plans of the Engagement and Communication Strategy informed by a range of partners.
- b) In line with the Integrated Commissioning Framework for SEND, ensure all commissioning is co-designed with children, young people and parents
- c) New SEND Inclusion Support officer recruited whose role is to use the feedback from parents/carers children and young people to embed our quality assurance framework
- d) Support the development of the Parent Carer Forum (CAPA) to increase its scope and reach

Established links in place with key partners identifying priorities to inform the new engagement strategy. Strategy will enable the engagement & participation with parents/carers and young people

There is a clear offer in place for all children and young people focussed on achieving meaningful outcomes, which has been developed through joint commissioning and co-production with CYP and their parents/carers.

Feedback from quality assurance activities with parents/carers children and young people leads to identified areas of improvement in SEND provision.

Increase in the engagement from parents/carers of CYP attending mainstream provision as well as Special Schools. Evidenced by membership numbers of the parent carer forum from January 2019 baseline.

B2 Progress update: – December to Mid-January 2021

Action (c) has been completed. However, actions [(a) (b) (d) and (e)] are delayed due to the closure of CaPa the parent carer forum in the Summer of 2020, O&S have been kept informed of other engagement work that has been undertaken during this period. Below is an outline of the work that has been completed with parents and carers including the work around the development of the new parent/carers forum. Whilst this is an important group we have taken the opportunity over this reporting period to meet with parents around the refresh of the SEND strategic priorities and we are aiming to launch the refreshed document in June 2021.

1. Parent Carer Forum

The work with Contact the national DfE funded organisation that supports Parent Carer Forums through the regional and national network is in place. The Associate has worked closely with the administrator from CaPa in closing the remaining CaPa work and transferring to a holding Facebook contact supported by Contact to develop a new Parent Carer Forum. Contact has consulted with local parent organisations including PATT the advice and support service to plan the next steps in developing a new Parent Carer Forum.

Consultation activities took place during November. Four virtual events have taken place and we are using this as a platform for the development of the new Parent/Carer forum. The key focus of this work has been on the Local Offer.

The steering group of parents for a new Parent Carer Forum has been established from the consultation meetings that have taken place. This new steering group consists of parents with children of a range of ages and different needs and are linked into other local SEND groups. This group is now working with Contact to develop the new Parent Carer Forum and establish the priorities for this group.

B3: Engagement with children/young people

- a) New Pupil/Student Engagement Strategy and Implementation Plan to be written and published.
- b) Collect the views of parents/carers/ CYP with SEND through the new engagement portal as a baseline and continue to measure throughout the service transformation
- c) PFH and ADES will host a minimum of four engagement events a year for parents/carers/ CYP to gain feedback in relation to service development.
- d) Participatory Joint Strategic Needs Assessment refresh looking at the lived experience of children and young people and their families

This will include workshops with the Youth Cabinet, training and implementation of peer ambassadors and pupil workshops.

Governed by SEND Improvement Board & Thurrock's Youth Cabinet

To gain greater clarity on how engagement with schools can be improved

And as a result:

CYP's voice will inform service transformation and be central to their EHC Plan

Co-production will work at:

- a) Strategic level e.g. JSNA, Joint Commissioning strategy, Capital Programme
- b) Service level e.g. reviews and redesign of the Health , Education or care services delivery
- c) Individual Level e.g. plans will be based on individual needs identified from a person-centred approach.

B3 Progress update:- December to Mid-January 2021

Action **(b)** has been completed and action **(d)** is on track to be completed. As Report previously to Children’s O&S Actions **(a)** and **(c)** have been delayed due to COVID 19. The Inspire Youth Team hosted a number of sessions during this reporting period to gather the voice of our children and young people which are outlined below.

1. The work on pupil engagement has been developed so that it is linked to the broader engagement work that takes place across children’s services. Work has been undertaken with the Inspire Youth Team and young people in the development of a participation and engagement strategy for children and young people to ensure there is a key focus on children with SEND.
2. Work in place with the Youth Service has continued including the completion of focus groups during this reporting period developing the plan of engagement work. These have taken place in conjunction with the Adult College with students on specialist programmes including Prince’s Trust TIL and MINT (SEND post 16 programmes). This plan is being reviewed by the Youth Cabinet and will be going to the SEND Improvement Board in January.

B4 Progress update – December to Mid-January 2021

Action **(b)** has been completed. Actions **(a)** and **(c)** remain ongoing with some delay due to COVID 19. An outline of the work undertaken is below.

1. Full review of out of borough placements and updated information on Synergy completed in August 2020 ensuring that we are clear where our children and young people are, new dates have been agreed for the coming academic year.
2. New Quality Assurance Framework for individual placements has been implemented in autumn 2020 and includes specific consultation with young people to ensure the voice of the child/young person is an integral part of this process. Feedback is being fed back into the service via training events Information from pupils where visits took place as part of the QA framework visits, led to discussions with providers where appropriate to ensure the needs of individuals were being met and any general issues for the provider are being addressed an example of this was a young person was interested in reviewing the local offer to get a greater understanding of what was on offer during school holidays for young people with SEND.
3. SEND Improvement Board has approved a new timetable of QA visits for the academic year 2020/21 – due to the current national lockdown we have contact all out of borough schools to check how our children and young people are engaging with education in the current national lockdown.
4. Quality Assurance visits have taken place 11th and 18th December a quarterly report is provided to the SEND Improvement Board to identify key points of learning – the visits undertaken have not identified any areas of concern.

B5: Commissioning of provision

- a) Produce and sign off with Providers new Service Level Partnership Agreements for local provision - ensuring all are updated with appropriate KPI's in place.
- b) Implement the Integrated Commissioning Framework for SEND, which will ensure there is a fully planned and consistent approach to

B5 Progress update:- December to Mid-January 2021

All actions have started but we have experienced some delay due to COVID 19. Outlined below is work that has been undertaken with regards to these actions.

1. All commissioning visits for in borough resource bases have been completed with agreements on the numbers of pupil places to be commissioned from September 2021 for 2021/2022. Increase in potential numbers of pupil places agreed for two bases, which will be allocated, based on emerging demand and funded directly in the first instance. Designated Schools Funding remains a key area of risk due to the high level of demand for out of borough placements and the increase year on year around requests for EHCP's. We are preparing a DSG high needs recovery plan which will be signed off by our Schools Forum in March 2021.
2. Budget allocation for commissioned places agreed with all Mainstream Resource Bases, Special Schools and Alternative Provision including an inflation increase for 2021/2022. DSG spend on commissioned places agreed by Schools' Forum.
3. New Service Partnership Agreement structure has been agreed with schools and reported to Schools' Forum. General Key Performance Indicators have been agreed. Further work completed with Speech and Language / Autism Bases on specific key performance indicators.

4. New commissioning post has been appointed with a start date of February 2021. This post will support the sufficiency planning and identification and work with individual placements to ensure the quality of service delivery.
5. Interim arrangements for additional places at Treetops School prior to opening of Treetops Free School in place using new accommodation. Arrangements for the new admissions covering the Free School interim accommodation is now arranged for February with two urgent admissions already completed into the main school.

Area of Concern 3: EHC Plans and the annual review process are of poor quality. The local authority has no system in place to make sure that relevant professionals and services are notified when EHC Plans need reviewing or updating. Professionals are not routinely informed of requests to submit written information within specified timescales. Too often EHC Plans are out of date and do not accurately reflect the needs or views of children and young people, or the views of the families. The information from EHC Plans and annual reviews is not used to inform the commissioning of services, particularly, but not exclusively, for young people between the ages of 19 and 25 years.

Aim of this programme of work

To ensure that the Local Authority and other partners produce a Plan that clearly articulate the needs of the child/young person having taking into consideration the voice of children/young people developed in partnership with Education, Health and Social Care. Annual review to be completed within timeframes and clearly reflect the views of children/young people, parents/carers and educational providers.

KPI's / Targets for assessing overall success of the programme

EHC PLANS:

- Improved staffing capacity to meet statutory requirements
- Strengthening management oversight to ensure that we are clearly sited on EHC PLAN progress
- Developing or revising the QA framework (to include practice standards and parent feedback and feedback from children and young people)
- Skills audit and training Plan being developed this will include Leadership Skills.
- Training of staff to include:
 - (i) caseworkers in the SEND team on how to successfully bring out the key point from specialist and other assessments to ensure this information is an integral part of the Plan as well as being included in the appendices)
 - (ii) social care staff
 - (iii) health staff
 - (iv) SENCOs

Increase in EHC Plans completed within 20 weeks from the 2018 baseline to be at least at the national average

Increase in new EHC Plans that meet standards established in the new QA framework (baseline date January 2020) when the QA framework will be operational

% of parents/carers who report on the feedback form that:

- They felt fully involved in the process
- They felt the communication was good
- They felt the EHC Plan accurately reflected their child's and young person's needs

- They felt the outcomes were good
- They felt the provision would meet their child's and young person's needs
- Baseline established autumn 2019

Feedback from education establishments:

% who felt the EHC Plan accurately reflected needs

% who felt the outcomes were clear

% who felt the EHC Plan would improve access to teaching and learning and improve progress

Baseline established December 2019

Review of EHC PLANS

% of EHC Plans that were reviewed within required timescales (baseline = % for secondary transfers, % of post 16 transfers, % others)

% of EHC Plans finalised within 12 weeks of the AR meeting where the decision taken was to amend the Plan

% of parents/carers who reported that:

- They were fully involved in the review
- They were satisfied with the outcome
- They were fully involved in the preparing for adulthood transition
- Baseline established

Area of Concern 3: EHC Plans and the annual review process are of poor quality. The local authority has no system in place to make sure that relevant professionals and services are notified when EHC Plans need reviewing or updating. Professionals are not routinely informed of requests to submit written information within specified timescales. Too often EHC Plans are out of date and do not accurately reflect the needs or views of children and young people, or the views of the families. The information from EHC Plans and annual reviews is not used to inform the commissioning of services, particularly, but not exclusively, for young people between the ages of 19 and 25 years.

Aims: To ensure that the Local Authority and other partners produce a Plan that clearly articulate the needs of the child/young person having taking into consideration the voice of children/young people developed in partnership with Education, Health and Social Care. C1 Progress update – December to Mid-January 2021			
<p>All actions have been completed, except for one aspect of action (c). This has been impacted due to COVID 19 and the lack of level 3 and 4 training nationally. The quality of EHCP's was an area that Ofsted outlined in the WSoA – to address this the following work has been undertaken to ensure that the quality of EHCP plans improves.</p> <ol style="list-style-type: none"> 1. Caseworkers who are enrolled on Nasen Casework Award have completed their first one day workshop in January 2021 2. Person centred planning work is continuing with developments to EHCP processes. We are looking at holding meetings at earlier stages in the process, which will ensure EHCPs are more person centred and the process is more streamlined. This work is ongoing and will support some of the whole system change we are looking to introduce over the coming academic year.

C2 Progress update – December to Mid-January 2021

Whilst a number of these actions [(a) – (i)] have been completed we are still dealing with historical delays in relation to the annual review process as a result this remains amber until we can evidence progress against the backlog of AR's but further evidence is needed to ensure the work has been fully embedded. The timeframes for annual reviews continues to be a challenge. Outlined below is work that has been undertaken to address this with a view to the backlog being cleared by May 2021

1. Strategic Lead and Case Work Supervisors continue to review to ensure there is a clear understanding by management of priorities and caseworkers can be held to account. The reviews carried out so far have shown that case files are up to date and caseworkers are completing the required actions to move them forward.
2. EHCP QA process continues and QA overarching framework developed a report which will be prepared for SEND Improvement Board for February 2021.
3. Strategic Lead's met with Enhance EHCP writing company used by Thurrock – as a result Enhance will contribute to/ participate in monthly QA meetings so that feedback is direct and timely and improvements can be made where necessary do they attend these meetings? - Enhance continue to work with us to improve the EHCPs based on feedback from QA work.
4. Strategic Lead met with Treetops EY team who were writing EY EHCPs. Due to the increase in numbers and quality of plans it was agreed all EY plans would be written by SEN Service case workers from November 2020 with oversight from supervisors/ experienced EHCP writers – this will support an improvement in the Early Years EHCPs the QA work undertaken in December has seen an improvement in the early years plans.
