

QUESTIONS FROM MEMBERS OF THE PUBLIC

Three questions were received from members of the public.

From Mr. Perrin to Councillor Jefferies

Can you confirm that it is a Council rule that tenants/residents must remove refuse bins "wheelie bins" after being emptied from public areas e.g. pavements?

From Mr. Seeger to Councillor Maney

I would like to make the Council aware that the Purfleet on Thames railway station still has signs just saying "Purfleet", and that all announcements and electronic displays at stations and on trains still only say "Purfleet". Will the Council make representations to C2C to inform them that their signage, including electronic signage and train announcements, are outdated and need to be updated as soon as possible?

From Mr. Williams to Councillor Coxshall

Councillor Coxshall, concerning the demolition of the Thameside Theatre Complex threat, we briefly note the following key facts;

- i) The recently issued Property Agent's site sale particulars of the Titan Works for housing lists positive Grays facilities, London links, shopping, eateries etc and the new £10 million Council Offices over 900 yds away, yet glaringly excludes any mention of the Thameside Theatre Complex facility right beside the Titan Works indicating they appear to know it will be demolished if possible.
- ii) Your Highways Department has to accept that Titan Road, at current width of 25 feet kerb to kerb plus its footpath, is already a wide enough second vehicular access to serve the Titan Works pit in conjunction with its newer Hogg Lane access.

Will you therefore confirm that the use of Titan Road as a second access to serve half of the approximately 700 possible homes development will not require the closure and demolition of the Thameside Complex in order to further widen Titan Road for that housing?"
