Adjustments			1		1		3		0		

Notes:

- 1 The total rounded entitlement of each party group is compared with the total number of seats allocated to that group. The allocations are then adjusted manually to ensure that the number of seats allocated to a particular group matches their entitlement.
- 2 Compare total rounded entitlement of each party group (Row 7) with the total number of seats allocated to that group in Row 20. Then adjust the allocations manually to ensure that the number in Row 20 matches that in Row 7
